

You are Registered for Values & Anchors

The aim of this interactive session is to have a relaxed atmosphere and a facilitated discussion between us as a group.

Hopefully, you would have seen when registering that completion of the attached Values Audit is a **prerequisite** to attending.

This exercise will help you identify your values, prioritise your top values, and discover how your career anchors align with your values.

Together, we will explore your results and help you to realise how powerful your values and career anchors are when considering your future career choices.

To confirm this session will run for 90 minutes. Thank you for joining with cameras and microphones on to support the required participation.
